

MR BROSS 7E22

STAT  Deputy Chief, Special Security Center, has approved the sanitized version. This version differs from the codeword version, but not in any way that would require a new coordination effort.

STAT 25X1  
Attached is the original of both the codeword and Top Secret versions of the planning guidance paper, and proposed letters (for your approval) to be sent by  to the USIB distribution list and by  to the NIRB members.

The USIB distribution would include the USIB committee chairmen, but we do not propose sending any copies to PFIAB or the NSC staff. For such distribution, if the DCI desires such, we suggest distribution be by accompanying letter from the DCI.

If you approve these letters, the USIB secretariat will handle reproduction.
